

AdvantX: Maximizing the Performance of Ambulatory Surgery Centers and Surgical Hospitals

AdvantX Surgery Center: A comprehensive solution for today's ASCs

The AdvantX Surgery Center application includes feature rich functionality to improve facility management and optimize patient care while accelerating productivity and cash flow.

Features include:

- Scheduling and registration
- Physician preference cards
- Case history
- Inventory management
- Case costing and analysis
- Managed care contracting
- Billing and accounts receivable automation
- Physician and staff credentialing
- Utilization analysis
- Quality assurance capabilities
- Industry standard HL7 interface capabilities to facilitate sharing of data with other in-house systems
- Robust administrative, statistical and outcomes reporting
- A wide array of complementary modules

AdvantX provides end-to-end functionality and enterprise-wide reporting

AdvantX: The leading information management solution for ambulatory surgery centers

Our AdvantX suite consists of the industry's leading ASC application, an integrated electronic health records (EHR) system and a specialized surgical hospital information management system.

AdvantX streamlines and improves administrative and clinical processes, from scheduling, registration, clinical documentation and inventory management to billing, collections and revenue cycle management. Whether you are a freestanding facility or part of a corporate network, our enterprise system intuitively follows your facility's workflow, improving cash flow, productivity and patient care, all while helping you to proactively manage your business.

AdvantX Surgical Hospital: The leading solution for surgical hospitals

AdvantX equips your facility with the functionality you need to manage both inpatient and outpatient care, including:

- Scheduling and registration processing
- Physician preference cards
- Census and bed management
- Case history
- Purchasing and inventory management
- Case costing and analysis
- Payer contracting
- Billing and accounts receivable
- Physician and staff credentialing
- Comprehensive reporting
- Utilization analysis
- Acuity tracking
- Quality assurance
- Medicare cost report data collection
- A wide array of complementary modules

AdvantX Enterprise: A seamless enterprise-wide solution

By using a combination of any of our AdvantX products, affiliated ASCs and surgical hospitals can securely share clinical and financial information across the continuum of care. With AdvantX Enterprise, your organization can enjoy the following benefits:

- Share key demographic data with other facilities with an enterprise-wide master patient index

- Share physician schedules across the enterprise with resource-based scheduling
- Share CPT® codes, diagnosis codes and other key user table information with other facilities
- Maintain facility-specific fee schedules and billing information
- Interface seamlessly with other applications using standard HL7 protocols, facilitating enterprise-wide communications and data sharing

Complementary products, revenue cycle and workflow applications

Through the SourcePlus suite of complementary modules, revenue cycle management tools and workflow enhancement applications, SourceMedical delivers added value to ASCs - helping you to further optimize facility management, improve cash flow and maximize your return on investment.

About SourceMedical

SourceMedical provides outpatient information solutions and services for ambulatory surgery centers, surgical hospitals and rehabilitation clinics nationwide.
