

## Vision Specialty Hospital: A comprehensive solution with flexibility to manage any specialty hospital's clinical and administrative needs

When it comes to managing patient information and facility operations, ambulatory surgical centers and specialty hospitals require a customized solution built with their unique needs in mind. That's why at SourceMedical, we've devoted 30 years to growing and refining our applications to meet the evolving needs of our customers.

SourceMedical's complete suite of applications enables more than 2,300 surgical facilities and 260 consultants and management companies nationwide to manage patient information in a way that improves productivity and profitability while enabling them to enhance the quality of care they deliver.

### Vision Specialty Hospital: Maximizing the performance of specialty hospitals

Expanding upon the success of our Vision software, Vision Specialty Hospital (Vision SH) is a comprehensive solution that offers the functionality and flexibility to manage any specialty hospital's clinical and administrative needs – at a cost significantly lower than alternative acute care systems. This complete financial and clinical management solution eliminates time-consuming manual processes, maximizing revenue and enabling staff to focus on service to patients and physicians, all while accessing timely, accurate data for improved decision-making.

Vision SH includes a fully integrated EHR, making it the only software application designed specifically for specialty hospitals that offers seamless integration between your administrative and EHR systems. Users benefit from the consistent workflow and ease of having all the information they need at their fingertips within a single database. Facilities also incur substantially lower operational and administrative costs by having just one application to implement and support.

Some of the benefits Vision SH offers include:

- Accurate and current information to physicians via secure on-line access from home or office empowering physicians to make more immediate clinical decisions and improve patient outcomes
- Integrated medication ordering and alerts reduce medication errors
- Maximize profits through a shortened accounts receivable cycle and gain significant operational efficiencies
- Workflow automation and customizable charge capture that improves departmental efficiency
- Extensive audit management reporting ensure HIPAA and other regulatory compliance

### About SourceMedical

SourceMedical provides outpatient information solutions and services for ambulatory surgery centers, specialty hospitals and rehabilitation clinics nationwide. With a 30-year track record and more than 4,300 satisfied customers, SourceMedical is the trusted source for innovative applications, in-depth industry expertise and unsurpassed customer service. The company's unique, end-to-end systems improve operational efficiency and cash flow while enabling healthcare facilities to deliver a higher quality of patient care.
