

Simplifies and expedites clinical documentation, accelerating your revenue cycle management process

With **SourcePlus Transcription** your facility can now pull patient data directly from your SourceMedical system, edit transcribed reports online, see immediate dictation status, view audit trails of changes, and many other features not found with standard transcription services.

Through our partnership with Surgical Notes, SourceMedical is pleased to introduce an innovative, integrated transcription service focused on the unique needs of the ASC and specialty hospital industries. Our quality solution allows for:

- Web access and online editing
- Electronic signatures
- Q schedule-Interface with SourceMedical's Products means no more faxing schedules, ensuring 100% accuracy on patient demographic information
- Audit reporting provides a complete record of every change or access to a patient's documents
- Distribution of reports to the dictating and referring physicians via secure email or fax
- Multi-tiered report management such as searches by DOS, Patient Name, Physician and Patient ID
- Document sharing between ASCs, Physician Offices and Central Billing Offices
- Allows multiple users to view the same report at different locations, simultaneously
- Provides the ability to see pending dictations
- Easy access to patient documents without pulling paper charts
- Dictation using digital handheld recorders or toll-free phone lines
- Vision EHR Operative Report integration automatically places an electronic copy into the proper Vision EHR patient chart, eliminates having to scan the H&P and Operative Report back into the Vision EHR software.
- 128-bit document encryption
- STAT transcription available within two hours
- Early morning delivery for all pre-op H&Ps via fax and email
- Three levels of quality assurance and proofing
- 24-hour customer service

SourcePlus Transcription adds greater functionality for paperless chart management and storage, resulting in completed operative reports in a more timely and cost effective manner than traditional in-house transcribing. In addition, our solution can be customized with dictation instructions and ID numbers to match what you are currently using, as well as replicate any templates currently used by your staff.

Developed to help meet the unique needs and requirements of the ASC and specialty hospitals industries, SourcePlus Transcription automates your clinical documentation process and optimizes your facility's efficiency.

"Implementation of SourcePlus Transcription was very easy and saves us up to 4 man hours per week. I would give the product an A."

**- Jona Walen, Business Office Manager
The Galleria Surgery Center at Brae
Valley**
