

SourcePlus Eligibility: Provides Real-time Individual Payer Eligibility and Benefit Data

Verifying a patient's coverage is a necessary, but costly and labor intensive process. With SourcePlus Eligibility, your facility can change the game. Securely integrated with your SourceMedical application, customizable workflow and alerts completely automate the process, allowing your staff to focus on other critical tasks such as patient financial counseling and up-front patient collections.

- Experience immediate benefits and a significant return on investment. Eliminate the costly, labor intensive process of manually verifying patient benefits by automating the process with this integrated, web-based solution
- Replace time-consuming phone calls to insurance payers, long waits on hold, and manually re-keying data into carrier web sites. Using real-time integration with AdvantX, SurgiSource and Vision, SourcePlus Eligibility allows data to flow seamlessly over an encrypted, secure connection to payers as users enter it into your SourceMedical system. Changes, additions, and last minute cases are automatically synchronized and verified to ensure nothing falls through the cracks
- Ensure you receive the latest, most up-to-date coverage and deductible information through the use of customizable timing, triggers and workflow parameters
- Detailed analysis and explanation of coverage ensure you have all the information needed to process cases and educate patients of their financial responsibility in advance of their procedure
- Automatically alert users via email of potential coverage gaps, inconsistencies, or potential non-coverage, minimizing the risk of creating bad debt
- Demographic conflict alerts allow you to immediately compare patient information from your files to that of the payers, leading to cleaner claims and fewer denials
- View, print, or archive the details of coverage for each patient from within the web-based portal, keeping information at your fingertips
- Risk-free pricing model means you only pay for the transactions you use. Customizable settings that allow you to bypass specific payers and determine how to process secondary payers

Benefits Include:

- Reduces Manual Labor and Increases Staff Productivity
- Eliminates Countless Hours Verifying Patient Eligibility Information
- Verifies Coverage and Patient Co-payments Before Services are Provided
- Reduces Claim Rejections and Denials
- Increases Upfront Collections
- Improves Cash Flow
- Improves Customer Service

SourcePlus Products and Services: Solving problems and boosting performance

The SourcePlus suite includes a wide array of add-on modules, products and services that add value to our core information management systems; further enhancing facility management, clinical efficiency, quality and profitability. With our integrated SourcePlus Products, your surgical facility can leverage the best tools available to ASCs and specialty hospitals.

Benefits include:

- Improve service to patients and physicians
- Optimize reimbursement and cash flow
- Improve clinical documentation
- Boost staff productivity
- Reduce staff and supply costs
- Improve decision-making
