

## Vision WebSuite: Extending Vision's Benefits to Surgeons via the Internet

---

For surgeons and surgery center personnel, mastering efficiency and control of surgeons' schedules can be difficult to accomplish. Now, with the introduction of Vision WebSuite, mastering this control and efficiency is a reality.

Vision WebSuite is an innovative solution that offers surgeons unmatched, web-based access to their schedules and cases, while providing the ASC with the level of control and security that they want.

Vision WebSuite allows ASC staff the ability to set the appropriate level of schedule access based on their facility's needs, and allows affiliated physician offices to view available time slots for performing specific procedures at the ASC.

### Vision WebSuite:

- Provides flexible scheduling options, allowing the ASC to control whether WebSuite schedulers can create appointments or whether their appointments are treated as requests requiring approval by the ASC
- Synchronizes with Vision's core settings to ensure appropriate entry of patient data in the scheduling process
- Performs conflict checking in several areas including verification of surgeons' credentials and privileging
- Controls patient privacy, allowing WebSuite schedulers only with access to their surgeons' own patients
- Provides the ability to send notes to the ASC with the appointment or request
- Highlights appointments on the Vision scheduling grid to easily identify appointments created via the WebSuite portal
- And many other key features...

### SourcePlus Products and Services: Solving problems and boosting performance

The SourcePlus suite includes a wide array of add-on modules, products and services that add value to our core information management systems and further enhance facility management, clinical efficiency and profitability. With our integrated SourcePlus Products, your surgical facility can leverage the best tools available to ASCs and specialty hospitals.

#### Benefits include:

- Improve service to patients and physicians
- Optimize reimbursement and cash flow
- Improve clinical documentation
- Boost staff productivity
- Reduce staff and supply costs
- Improve decision-making
- Improve customer service
