

SourcePlus BI: Enhancing performance through business intelligence and benchmarking

Developed by industry experts, SourcePlus BI is a powerful, Web-based business intelligence and reporting solution designed to provide you with instant access to the data you need to make more timely and informed business decisions. With comprehensive analysis and robust reporting capabilities, SourcePlus BI puts your facility's clinical and financial information at your fingertips - empowering you to make proactive, strategic decisions.

No more running multiple reports, sifting through stacks of paper or crunching numbers in spreadsheets - SourcePlus BI makes finding answers to tough questions easy. With SourcePlus BI, you can access and analyze clinical and financial data from a high-level view and drill down to view your data in greater detail.

Powerful business analytics and reporting

With SourcePlus BI, you will have access to a powerful Web-based business analytics and reporting system that enables your facility to:

- Make more timely and informed business decisions
- Improve profitability and clinical efficiency
- Create accurate Board reports in minutes
- Negotiate better managed care contracts
- Optimize inventory levels and pricing
- Identify clinical risks, trends and anomalies
- Benchmark performance versus your true peers
- Forecast future center performance

Robust clinical and financial benchmarking

SourcePlus BI also provides national clinical and financial benchmarking — the information you need to compare your facility's performance against similar facilities. Unlike other benchmarking programs, SourcePlus BI gives you:

- Automatic and timely data collection
- Standardized data
- Advanced data filtering capability
- Greater level of detail
- Side-by-side comparisons

SourcePlus Products and Services: Solving problems and boosting performance

The SourcePlus suite includes a wide array of add-on modules, products and services that add value to our core information management systems; further enhancing facility management, clinical efficiency, quality and profitability. With our integrated SourcePlus Products, your surgical facility can leverage the best tools available to ASCs and surgical hospitals.

Benefits include:

- Improve service to patients and physicians
- Optimize reimbursement and cash flow
- Improve clinical documentation
- Boost staff productivity
- Reduce staff and supply costs
- Improve decision-making

SourcePlus BI: Value-driven business intelligence

Analysis cubes: Flexible reporting and analysis

With SourcePlus BI, your facility's data is extracted on a scheduled basis and transferred in an encrypted format over the Internet to a secure data center where it is restructured into "data cubes" that can be easily interpreted. Data cubes are powerful packages of processed data that provide flexible reporting and analysis capabilities across key areas of your business.

Financial benchmarking

With SourcePlus BI's Financial Benchmarking data cube, you can compare your facility's financial metrics with local and national averages. This enables you to identify and address potential problem areas before they have a major impact on your bottom line.

- Billing and collections
- Accounts receivable
- Reimbursement analysis
- Case analysis

Clinical benchmarking

SourcePlus BI enables you to compare your facility's clinical metrics to national averages. With this functionality, you have the detailed information you need to determine areas that need improvement.

- Cost analysis
- Clinical statistics
- Inventory analysis

About SourceMedical

SourceMedical provides outpatient information solutions and services for ambulatory surgery centers, specialty hospitals and rehabilitation clinics nationwide. With a 30-year track record and more than 4,100 satisfied customers, SourceMedical is the trusted source for innovative applications, in-depth industry expertise and unsurpassed customer service. The company's unique, end-to-end systems improve operational efficiency and cash flow while enabling healthcare facilities to deliver a higher quality of patient care.
