

SourcePlus WebSuite: Extending Vision's Benefits to Surgeons via the Internet

For surgeons and surgery center personnel, mastering efficiency and control of surgeons' schedules is difficult for many centers to accomplish. Now, with the development of SourcePlus WebSuite, mastering control and efficiency is a reality through Vision's new web-based scheduling tool.

This innovative solution offers surgeons unmatched, web-based access to their schedules and cases, while providing the ASC with the level of control and security that they need.

Vision WebSuite allows ASC staff the ability to set the appropriate level of schedule access based on their facility's needs, and allows affiliated physician offices to view available time slots for performing specific procedures at the ASC.

SourcePlus WebSuite:

- Provides flexible scheduling options, allowing the ASC to control whether WebSuite schedulers can create appointments or whether their appointments are treated as requests requiring approval by the ASC
- Synchronizes with Vision's core settings to ensure appropriate entry of patient data in the scheduling process
- Performs conflict checking in several areas including verification of surgeons' credentials and privileging
- Controls patient privacy, allowing only WebSuite schedulers to access their surgeons' own patients
- Provides the ability to send notes to the ASC with the appointment or request
- Highlights appointments on the Vision scheduling grid to easily identify appointments created via the WebSuite portal
- And many other key features...

In addition, WebSuite fully integrates with SourceMedical's Vision software providing synchronized settings across both applications.

SourcePlus Products and Services: Solving problems and boosting performance

The SourcePlus suite includes a wide array of add-on modules, products and services that add value to our core information management systems; further enhancing facility management, clinical efficiency, quality and profitability. With our integrated SourcePlus Products, your surgical facility can leverage the best tools available to ASCs and surgical hospitals.

Benefits include:

- Improve service to patients and physicians
- Optimize reimbursement and cash flow
- Improve clinical documentation
- Boost staff productivity
- Reduce staff and supply costs
- Improve decision-making
