

SourcePlus EHR: Improving Productivity and Patient Care

SourcePlus EHR: Intuitive interface, powerful functionality

SourcePlus EHR is a revolutionary electronic health records system that mimics real-world processes and workflow. SourcePlus EHR delivers all the benefits of an EHR while reducing the time it takes for clinicians and office personnel to learn the system. Our first-of-its-kind EHR solution enables healthcare facilities to move from paper-based medical records to a fully computerized system—simply, quickly and painlessly.

The system's intuitive user interface mimics familiar paper-based processes enabling physicians, nurses and staff to access and update secure patient records from any location in just seconds. As a result, healthcare facilities experience the following benefits:

- Superior patient care and patient safety
- Increased revenue and productivity
- Decreased operating costs
- Reduced risk and liability
- Satisfied physicians, nurses and staff

SourcePlus EHR is loaded with user-friendly functionality that allows clinicians and office personnel to quickly and easily move from paper-based medical records to a fully computerized system.

The SourcePlus EHR graphic-based interface organizes information in an intuitive, easy-to-use format.

SourcePlus Products and Services: Solving problems and boosting performance

The SourcePlus suite includes a wide array of add-on modules, products and services that add value to our core information management systems; further enhancing facility management, clinical efficiency, quality and profitability. With our integrated SourcePlus Products, your surgical facility can leverage the best tools available to ASCs and surgical hospitals.

Benefits include:

- Improve service to patients and physicians
- Optimize reimbursement and cash flow
- Improve clinical documentation
- Boost staff productivity
- Reduce staff and supply costs
- Improve decision-making

SourcePlus EHR: Adding value with unsurpassed benefits

Task Manager: allows you to assign important patient related activity like radiology and lab orders to support staff and other departments.

ePrescribing: includes a comprehensive drug database and supports the electronic transmission of prescriptions to pharmacies nationwide.

Fax Management: supports the digital sending and receiving of faxed patient records.

Coding: SourcePlus EHR is an Ingenix-powered Encoder Pro Module that puts all current E&M, ICD-9, ICD-10, CPT and HCPCS code sets at your fingertips.

HIPAA Compliant Log: tracks staff activity while working in the patient's record, ensuring you will always know who handled each specific patient activity.

Lab Interfaces: supports EDI ordering and result retrieval from national lab companies such as LabCorp and Quest.

Record Requisition Fulfillment: allows staff to extract, encrypt, protect, email and fax pages or entire patient records, enabling staff to fill a third party request for a patient record in minutes.

Chart Check-out: SourcePlus EHR is the only EHR system that allows providers to check-out a copy of a patient's record to a tablet or laptop and take it with them to an offsite encounter.

Patient Manager: enables you to track each patient's location in your facility, providers on the case and treatment stage/status in real-time — optimizing staff efficiency and resource utilization.

Scheduling: allows custom screen views of the daily, weekly and monthly patient and provider appointment schedules.

Messaging: uses a unique internal secure messaging system that supports patient related message activity, patient calls and staff message tracking.

Custom Form Templates: SourcePlus EHR is the only EHR system that allows you to design forms and templates that are similar to your current paper forms.

Imaging Module: uses the system's own imaging module to allow the scanning of patient related paper documentation directly into the appropriate sections of the chart for immediate access.

PACs Support: drops images from radiology labs or devices straight into a patient's record where they can be sized, manipulated and annotated with text.

Health Level 7 (HL7) Compliant: SourcePlus EHR is a complete HL7 compliant system that allows the seamless exchange of data with other systems that support HL7.

About SourceMedical

SourceMedical provides outpatient information solutions and services for ambulatory surgery centers, specialty hospitals and rehabilitation clinics nationwide. With a 30-year track record and more than 4,100 satisfied customers, SourceMedical is the trusted source for innovative applications, in-depth industry expertise and unsurpassed customer service. The company's unique, end-to-end systems improve operational efficiency and cash flow while enabling healthcare facilities to deliver a higher quality of patient care.
