

## SourcePlus BI: Enhancing Performance Through Business Intelligence and Benchmarking

Developed by industry experts, SourcePlus BI is a powerful, Web-based business intelligence and reporting solution designed to provide you with instant access to the data you need to make more timely and informed business decisions. With comprehensive analysis and robust reporting capabilities, SourcePlus BI puts your facility's clinical and financial information at your fingertips - empowering you to make proactive, strategic decisions.

No more running multiple reports, sifting through stacks of paper or crunching numbers in spreadsheets - SourcePlus BI makes finding answers to tough questions easy. With SourcePlus BI, you can access and analyze clinical and financial data from a high-level view and drill down to view your data in greater detail.

### Powerful business analytics and reporting

With SourcePlus BI, you will have access to a powerful Web-based business analytics and reporting system that enables your facility to:

- Make more timely and informed business decisions
- Improve profitability and clinical efficiency
- Create accurate Board reports in minutes
- Negotiate better managed care contracts
- Optimize inventory levels and pricing
- Identify clinical risks, trends and anomalies
- Benchmark performance versus your true peers
- Forecast future center performance

### Robust clinical and financial benchmarking

SourcePlus BI also provides national clinical and financial benchmarking — the information you need to compare your facility's performance against similar facilities. Unlike other benchmarking programs, SourcePlus BI gives you:

- Automatic and timely data collection
- Standardized data
- Advanced data filtering capability
- Greater level of detail
- Side-by-side comparisons

### SourcePlus Products and Services: Solving problems and boosting performance

The SourcePlus suite includes a wide array of add-on modules, products and services that add value to our core information management systems and further enhance facility management, clinical efficiency and profitability. With our integrated SourcePlus Products, your surgical facility can leverage the best tools available to ASCs and specialty hospitals.

Benefits include:

- Improve service to patients and physicians
- Optimize reimbursement and cash flow
- Improve clinical documentation
- Boost staff productivity
- Reduce staff and supply costs
- Improve decision-making

## SourcePlus BI: Value-driven business intelligence

---

### **Analysis cubes: Flexible reporting and analysis**

With SourcePlus BI, your facility's data is extracted on a scheduled basis and transferred in an encrypted format over the Internet to a secure data center where it is restructured into "data cubes" that can be easily interpreted. Data cubes are powerful packages of processed data that provide flexible reporting and analysis capabilities across key areas of your business.

### **Financial Analysis Cubes**

The SourcePlus BI financial analysis cubes help you maximize your cash flow by analyzing your charges, payments and write-offs; while trending your A/R balances and tracking under or overpaid cases. With this type of information at your fingertips, decision makers can focus on running their business, rather than chasing data.

- Billing and Collections
- Accounts Receivable
- Reimbursement Analysis
- Case Analysis

### **Clinical Analysis Cubes**

The SourcePlus BI clinical analysis cubes allow users to track and trend direct costs and clinical inefficiencies. Unlocking this information gives users the ability to make more timely and informed business decisions around key clinical metrics.

- Cost Analysis
- Clinical Statistics
- Inventory Analysis
- Scheduling Analysis
